## Commercial Garbage Pickup Information

Commercial solid waste customers have options not available to residential customers:

- to pick the day(s) of the week (Monday through Friday) for pick-up
- to pick which size and how many containers are needed per site
- on an occasional basis, to order an extra pickup during a week when necessary
- Rates are set up on “pickups per week”, so that the cost of two containers picked up once per week is the same as a single container picked up twice a week, and so on - *i.e. one cart picked up twice, on Mondays and Wednesdays, costs \$39.49 per month; whereas two carts on the same site, both picked up every Thursday, costs \$39.49 per month*

On site audit in August 2010 showed volumes ranged from one bag or can to some that could fill a 3 yard dumpster (some locations could not use a dumpster due to location in narrow alleys).
